Detailed Action

Status of the Application

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05 June 2002 has been entered.

Status of the Claims

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 82-128 have been renumbered 57-103. Claims 57-103 are pending in the present application and are subject to election of species requirements.

Election of Species

Claims 57-60, 69-71, 76-82, and 85-103 are generic to a plurality of disclosed patentably distinct species comprising:

- A) species of ligand (antibody or other structurally identifiable class of ligand),
- B) species of second ligand, (whether or not a second ligand is present and, if present, whether the second ligand is an antibody and, if it is not an antibody, the structurally identifiable class of ligand it is,

Art Unit: 1627

C) species of reagent, (whether or not a reagent other than test compound is present, and, if present, the identity of the reagent, AND

D) number of different cell lines used (all the same cells or more than one type of cell).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species **for each of A-D above**, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Tomas Friend** at telephone number **(703) 308-4548**. The examiner can normally be reached on Monday, Tuesday, Friday, and Saturday 8:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph McKane can be reached on (703) 308-4537. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-2742.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist at (703) 308-1235.
